🎯 CAREER OBJECTIVE

To build a challenging career in Industrial Automation where I can utilize my technical and analytical skills, contribute to organizational growth, and continuously enhance my knowledge in automation systems, machine installation, and troubleshooting.

🛠️ TECHNICAL SKILLS

Automation & Hardware Skills

- Machine Installation & Commissioning
- PLC Integration & Automation Systems
- Electrical Panel Troubleshooting
- Preventive & Breakdown Maintenance
- Wiring & Control Panel Modification

Software & Tools

- AutoCAD
- MS Excel & MS Word

🔧 CORE SKILLS

- Strong troubleshooting & problem-solving
- Root Cause Analysis (RCA)
- Quick learner & adaptable
- Leadership & teamwork
- Detail-oriented and analytical thinking

💼 PROFESSIONAL EXPERIENCE

🔹 **Onsite Service Engineer – Automation**

Razk Industrial Automation Pvt Ltd

📅 Jan 2025 – Present

- Installation and commissioning of industrial automation machines
- Calibration and integration of machines with existing systems
- Configuration of PLC-based automation systems
- Troubleshooting wiring issues and panel faults
- Hands-on experience with:
  - Cognex CCD Cameras
  - VisionPro Software
  - DataMan Barcode Scanners
- Integration of vision systems with PLC via:
  - Ethernet/IP
  - Profinet
  - Serial Communication
- Optical setup (lighting, lenses, filters) and system optimization
- Debugging and optimization of industrial robots (ABB, Mitsubishi)

🔹 **Field Service Representative**

Schneider Electric KSA

📅 Jan 2024 – Dec 2024

- Installation of LV, MV, and HV electrical systems
- Reading and verifying schematic diagrams
- Maintenance of ACB and substation systems
- SCADA signal checking and operation validation
- Troubleshooting electrical panels and modifying wiring
- Testing:
  - CT & PT

    - Circuit Breakers
    - Protection Relays

🔹 **Junior Executive – Automation Engineer**

Foxconn Hon Hai Technology India Pvt Ltd
📅 Mar 2021 – Jul 2023

- Diagnosing and rectifying machine electrical faults
- Handling emergency breakdowns in production
- Maintaining OEE (Overall Equipment Efficiency)
- Performing Root Cause Analysis (RCA)
- Implementing fool-proof systems
- Preventive maintenance of machines
- Handling startup & shutdown activities
- Retrofit projects (N104 & LBU – D53G)
- New machine installation (NPI projects)
- Troubleshooting:
    - Automation machines
    - Motors & drives
- Spare parts analysis and failure tracking

🔹 **Apprentice Trainee**

Flextronics Tech India Pvt Ltd
📅 Apr 2019 – Mar 2021

- Supporting new product trials (NPI)
- Maintenance of electrical & mechanical equipment
- Depanel router programming and PM activities
- Participating in Kaizen improvements
- Line layout design and optimization

🔹 **Earlier Experience**

- **Jayam Solution, Hosur (Support to TEAL)** – 2013 to 2018
- **Lotus Footwear Enterprise Ltd** – 2019 to 2020

🎓 **EDUCATION**

- **B.E – Mechanical Engineering**
  Tiruvalluvar College of Engineering & Technology, Vandavasi – 2013
- **Diploma in Mechanical Engineering (DME)**
  Pandiyan Polytechnic College, Thirupattur – 2009

📌 **PERSONAL DETAILS**

- Date of Birth: 10/04/1988
- Nationality: Indian
- State: Tamil Nadu
- Marital Status: Unmarried

📢 **DECLARATION**

I hereby declare that the above information is true to the best of my knowledge and belief.
